

RETAIL IMAGING

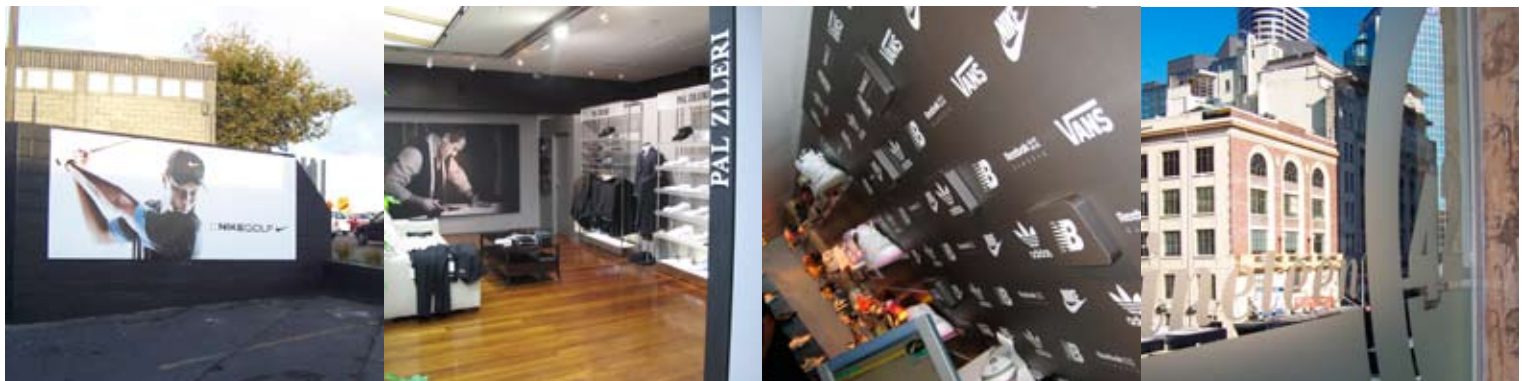

Big Colour has delivered premium imaging solutions for some of the largest names in retail, from nationwide visual merchandising to shop fitouts, exterior signage and specialist visual imaging. Big Colour can work with your design and visual merchandising teams to come up with a program that is both cost effective and impactful.

VISUAL MERCHANDISING

Big Colour offer a comprehensive Visual Merchandising production and nationwide installation service. Utilising our wide range of large format printing equipment we are able to deliver a premium instore imaging service, from colour rich backlit prints, window clings and wall wraps.

PERMANENT IMAGING

Either front-of-store or within the shop floor space, Big Colour has delivered many retail imaging fitouts that compliment the seasonal visual merchandising changouts. Either digitally printed or using traditional methods, talk to us about the right solution for your retail space.

SPECIALTY

Standing out from the crowd is a major challenge for any retail operator and the ability to do something visually different and create eye-catching in-store imaging can really make a difference. Big Colour can go 'outside the poster' and create a custom imaging solution.

* All prices are excluding GST and packaging & delivery. All specifications and pricing is subject to change without notice.

BUILDING SIGNAGE

For over 25 years Big Colour has delivered signage projects from car park signs to complete project management. Utilising our experienced in-house team and our vast array of digital imaging and signmaking equipment, Big Colour has the knowledge and expertise to deliver a quality signage solution.

CORPORATE SIGNAGE

Big Colour provide a comprehensive range of services for corporate signage. We can advise on and supply every item required to ensure the successful branding of offices or a building as well as project management from start to finish.

EXTERIOR SIGNAGE

Big Colour offer a range of exterior signage options to compliment your building and outdoor space. From routed free standing ACM plinths to illuminated fascia or wall signage, there are a number of pre-fabricated or custom options available.

THREE DIMENSIONAL SIGNAGE

Three dimensional signage gives excellent impact to retail, office and public spaces alike. 3D signage can be completed in a wide range of substrates and finishes, from clear acrylic to powder coated aluminium and stainless steel.

* All prices are excluding GST and packaging & delivery.
All specifications and pricing is subject to change without notice.

MUSEUMS | ATTRACTIONS

What separates Big Colour from being 'just another' signage business or printer is the ability to take on projects where quality, service and delivery time-frames are all paramount. Our clients can rely on a solutions based service for required imaging and installation - Museums and Attractions are these types of scenarios.

MUSEUM EXHIBITIONS

For over eight years Big Colour have been producing and installing museum exhibitions for the Auckland War Memorial Museum and MOTAT. Projects have included all types of printing and display techniques to suit the world class content displayed by these organisations.

PUBLIC SPACES

From mall food courts to educational halls and spaces Big Colour has delivered award winning imaging that is both visually appealing and durable enough to withstand the needs of a display as required.

PROJECT MANAGEMENT

Big Colour specialise in projects where quality is paramount in both production and installation. An excellent example of this ethos is the Visitor Centre at Mt. Cook / Aoraki, where Big Colour produced and installed over 300 metres of murals and displays over a six month period.

* All prices are excluding GST and packaging & delivery.
All specifications and pricing is subject to change without notice.

VEHICLE IMAGING

Let us help you take your brand mobile - it's unbeatable advertising! Understated solutions or fully wrapped mobile billboards are all within the realms of possibility. Whether it is a one-off vehicle or your entire fleet, Big Colour have the experience to translate your ideas into a workable mobile solution utilising our 3M authorised applicators.

VEHICLE WRAPS

Turn your vehicle into a mobile billboard. Vehicle wraps cover the entire surface of cars, trucks, 4X4s and even scooters with a conformable laminated adhesive that protects the vehicle paint work for the life of the imaging and is durable and colorfast for up to 5 years.

LESS IS MORE

Sometimes (well, most of the time) the whole car doesn't need to be wrapped to get your mobile message out on the streets. Big Colour can employ a range of vehicle imaging methods from digitally printed to vinyl cut lettering to deliver an affordable imaging solution.

FLEET IMAGING

Big Colour have been delivering vehicle fleet imaging solutions for over 15 years, either at our location, yours or utilising our network of nationwide 3M trained applicators. We can deliver a fleet solution that is durable, cost effective and visually impactful.

* All prices are excluding GST and packaging & delivery. All specifications and pricing is subject to change without notice.
