

POPUP STAND

Portable Exhibition Display

Paragon's PopUp Display is ideal for organisations with multiple yearly trade show requirements, a durable, versatile and lightweight system, the PopUp Display comes in 2 sizes in either a flat or curved configuration.

Installed in under 10 minutes, the display comes standard with halogen spotlights and a rigid carry case that can be turned into a display table with its own table top and face graphic.

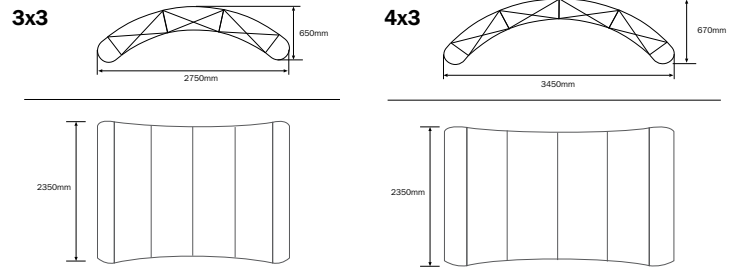

Another benefit of the PopUp is the interchangeable face graphic panels - companies can have the one hardware display system and different graphics for multiple brands or events.

For ease of mind the PopUp Display comes standard with a 5 year warranty on all hardware parts. Paragon can also produce change-out graphics on other suppliers hardware if required.

POPUP COUNTER

Portable Exhibition Display

The PopUp Counter is the ideal complement to your PopUp Display for exhibitions, presentations, food and drink sampling, promotions and many other events.

The hinged laminate wooden table top is used for counter display and storage is provided by the two internal shelves. The display is then completed by magnetically wrapping your branded graphic around the structure.

Quick and easy to assemble, the PopUp Counter is lightweight and can be effortlessly carried in the display bag provided.

BROCHURE STAND

Rigid/Soft

Available in either a lightweight fabric or rigid aluminium and acrylic style, Paragon's range of Brochure Holders effectively display your brochure material and are both stylish and practical.

The brochure stands are light and easy to set up and are ready to use in less than a minute.

The Soft style is excellent for traveling, weighing less than two kilograms and can be broken down to a size that can fit in most luggage. The rigid stand is more robust and weighs around 5kg.

Both stands come standard in a practical carry bag.
