

X100

X Frame Banner Stand

The X100 is lightweight and easy to assemble. These units use a frame in the shape of an "X", held together at a hub in the middle (back) of the display. The "X" design gives you a tension rod at each corner of the display.

This rental solution comes complete with a synthetic film banner that can be kept and reused at a later date.

POPUP COUNTER

Portable Exhibition Furniture

The PopUp Counter's hinged laminated wooden table top is used for counter display and there are two internal shelves. The display is then completed by wrapping your branded graphic around the structure.

The rental solution comes complete with a magnetic receptive panel that you can keep for future use.

QUICKSCREEN

Economy Display Wall

The QuickScreen comes complete with a PVC banner with receptive Velcro. Very quick and simple to erect there are no panels to hook up. A full display is erected in seconds. The display comes in a semi-rigid nylon carry case on wheels.

LCD BANNER

Portable Digital Display

The LCD Banner is an exciting new exhibition concept that incorporates a 15 inch all-in-one audio and video display screen into a traditional banner stand style display.

The rental solution comes complete with a banner and configuration of supplied AV media.

4X3 POPUP

Premium Exhibition Display

The PopUp Display is a durable, versatile and lightweight system that is an ideal rental option for companies requiring a display solution 2 or 3 times per year.

The rental solution comes complete with magnetic receptive panels that you can keep and store for future use.

BROCHURE HOLDER

Portable Exhibition Furniture

Available in either a lightweight fabric or rigid aluminium and acrylic style, Paragon's range of Brochure Holders effectively display your presentation material.

The Soft style is excellent for traveling, weighing less than two kilograms and can fit in most luggage. The rigid stand is more robust and weighs around 5kg's.
