

**FOOTPATH SIGN**

Premium Outdoor Stand

Paragon's Footpath sign is a tried and proven premium outdoor display solution. Perfect for retail entrances or outdoor exhibitions, the Footpath Sign has a robust rubber base that will stay put and not blow away or over.

The display panel is manufactured from powder coated aluminium and overlaid with a laminated digital print that is exterior durable and lightfast.

**DISPLAY SIZE**  
600mm x 900mm

**PRICE\***  
**\$485.00**

Please contact Paragon Display to match a comparable quote or for pricing of multiple quantities

**INFORMA STAND**

Interchangeable Display Stand

The Informer Stand is an ideal retail entrance solution for environments where multiple goods and services are promoted on a changing basis.

The display panel holds two paper prints back to back that can be changed out in seconds, all within an attractive aluminium and acrylic finish.

**DISPLAY SIZE**  
585mm x 845mm

\* All prices are excluding GST and packaging & delivery. All specifications and pricing is subject to change without notice.

**TD SERIES**

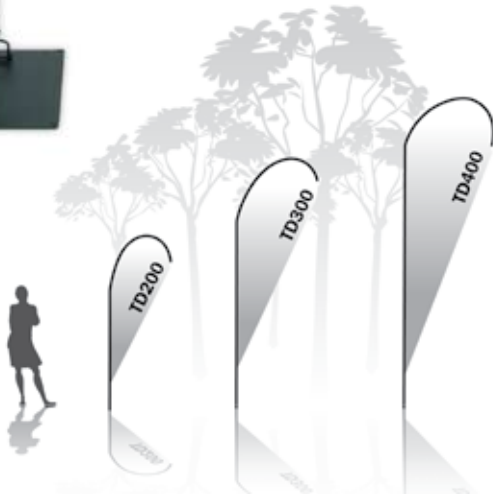

Outdoor Flag System

The TD Series Flag System comes in the popular 'teardrop' shape and style and is ideal for outdoor events or retail environments. The banner is incredibly light, weighing under 2kg, and comes alive by waving and rotating in the wind.

All flags are printed with dye-sublimation inks, which is capable of getting about 90% show through for that extra vibrancy of colour.

The TD Series Flag System comes standard with a carry bag and soft ground stake for use on grass. Paragon also offers other various stand options, such as the indoor stand, heavy metal base for use on concrete or a wall mounted system.

**Z SERIES**

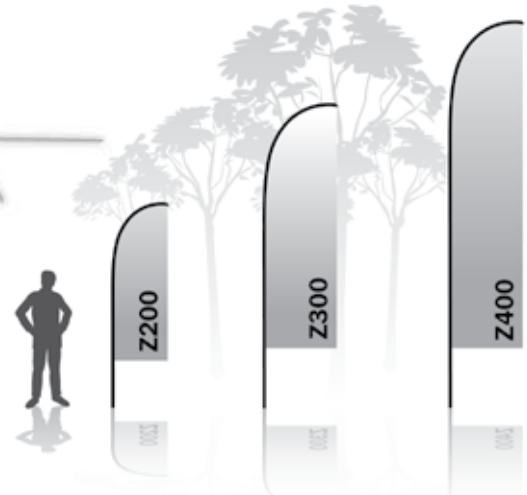

Outdoor Flag System

Similar in design to the TD Series, The Z series is a slightly more economical design and also a more portrait shape and style for delivering messages. The banner is incredibly light, weighing under 2kg, and comes alive by waving and rotating in the wind.

All flags are printed with dye-sublimation inks, which is capable of getting about 90% show through for that extra vibrancy of colour.

The Z Series Flag System comes standard with a carry bag and a soft ground stake for use on grass and a heavy metal base for use on concrete.
